During the same time Mr Whitesker was a member of thesame body and not one measure did he succeed in selians through But it is said he was presiding officer and would not introduce bills Why he would not introduce kills " is not He had just as much right to do so as Mr George or any other member, and his ition as president of the senate gave him addigional coffeence to what he would have had, had he been only entitled to a seat on the floor. Hence his failure to accomplish anyment that none of them ever passed into the form of law though his party was in the majority on the legislature, both in 1010 and Mr. George were in the senate together. It is much easier for democratic organs to say HOSIOTY SATISM MISSES C HOSIOTY Gents and Boys a large that Mr. George could do nothing than it is at OLDS & KING 147 Ibin street. to point out anything which Whiteaker has done. Though these organs have been often requested to name a single-measure which Mr. Whiteaker has successfully carried through in his legislative career for the bine at of Oregen they have been unable to name one To have so hved as to be called "Honest John' may be To have so hved worth something to Governor Whiteaker, but he may be as honest as possible and still be as he has been-comparatively useless as a representative of Oregon in congress Besid-s every than who knows Mr George will roach that his honesty usequal to that of any other man in Oregon. With but a small opportunity in legislative matters, compared with the long service of Whiteaker, George has secomplished more He is younger and therefore more active, he has a better educa tion and is therefore able to present his views more clearly and to impress them more firmly He is progressive in his ideas and not teh nd the age, as is Gov. White aker who stands to day but little advanced in his political faith from the position which he occupied twenty years ago when he took the narrow ground of opposition to every thing that had for its object the preservation of the uppon. His record then is familiar to the older residents of Oregon and we will no rewrite it, here. He has done nothing nor taken any position on the important page heiore the country since 1861 to indicate that he has got nut of the old groove of obsole of dogmas in which he then stood
